Back to School Issue 2006

Office hours
Monday -Friday
8:00 a.m. - 5:00 p.m.

Dr. Chapman has been providing orthodontic treatment on the west and northwest side since 1979!

Back to School Scheduling

We know it's sometimes more difficult to schedule appointments around school days, after school activities, fall sports, etc. We try to keep school calendars in our office to help you take advantage of early dismissal days and scheduled days off but may not have them all. If possible, it might help to bring a school schedule with you when you are scheduling future appointments so that you know what time of the day a class can be missed or when to take advantage of times away from school. Please remember that we alternate "prime" and "non-prime" appointments in our effort to be fair to everyone. Prime appointments are the first appointments of the day and after school appointments.

Self Ligating Brackets (SLB's) - Slip and Slide!

SLB's have sliding doors which hold the wires in place, instead of having to use the colored elastic ties. This greatly reduces the friction, which allows for speedier and more comfortable treatment, with increased intervals between adjustments, and much improved hygiene. We have been using the DAMON D3 bracket system since it came onto the market in early 2005, and have been impressed with the results.

Just recently, we have added the similar CARRIERE bracket system, which offers us even easier to use sliding doors, and is Nickel free.

Both the DAMON and CARRIERE HI-TECH bracket systems will increase our ability to provide non-extraction treatment, for broader and healthier smiles, in children and adults.

Invisalign—Removable Clear Braces!

We are a PREMIER PROVIDER for INVISALIGN. That means that we have treated a lot of cases with Invisalign and have a lot of experience with it. There is now an EXPRESS version, at a reduced cost for minor alignment issues

Herbst Appliance — No more headgears!

Originally developed in Germany, we were the first to introduce the HERBST appliance in this area over 10 years ago! It looks a little like a shock absorber, and we use it to treat overbites, without the need for headgear or extractions.

This year, the mechanism has been greatly reduced in size, which allows for greater comfort and greater chewing range. This also makes it easier to use on younger patients, before all the permanent teeth have come in.

Flex Plan Planning

In the fall, many employers have deadlines for the 2007 flex plan year. So, please plan ahead and at the next appointment in the office be sure to ask about any orthodontic treatment needs for 2007. We can work with you to help you plan to maximize any flex spending allocations available to you.

Fall Sports— Don't forget your mouthguard!

You should protect your teeth during sport activities with a mouthguard.

We have many options available including your school or team colors.

Be sure to ask at your next appointment.

For a fun fall treat, bring this coupon into the office to get a Glow-in-the-Dark retainer for only \$25

Fun for Halloween parties, slumber parties and sleep-overs, Friday night at the football game, or ???

We will need to take impressions, make the retainer and then deliver it to you—so, 2 appointments are needed and impressions need to be taken by October 24th for Halloween delivery. This retainer can be used as a temporary, fun retainer. It is not intended to replace your clear retainer for every day/night use. You'll be the hit of the party!

Valid through 10/31/06
